ITALIAN STYLE IS COOL

TORINO OVERVIEW H150

Multidecks

The line of supermarket displays grows also with this new TORINO H150, a semi-vertical freezer which, combined with the headcase, forms a promotional, elegant and functional island. The TORINO OVERVIEW H150 allows you to create a new type of display for the frozen food supermarket department, which can replace the traditional double decks island giving a new style to the supermarket even with its small size: the width of this island is only 1700 mm.
